

INTELLIGENCE
TO BUSINESS

CORPORATE OVERVIEW

MARVEL is a leading Systems Integrator focusing on the design, deployment and maintenance of ICT and ELV solutions (IP based systems and network infrastructure). We take pride in being one of the fastest growing ELV & ICT Company in the Kingdom of Bahrain having achieved remarkable growth in a short span and contributing significantly to the development of the State.

Established in 2007, **MARVEL** delivers technology contracting under many verticals including Supply and installation of IT Equipments, Network Infrastructure, Structured cabling, Telephony services, Wireless services, Electrical Services, CCTV solutions, Access control systems, etc. This unique business model provides a highly technical and well-diversified installation force, which combined, enables us to handle larger and more complicated projects. Much of the labour force is cross-trained under multiple disciplines enabling labour to flow between projects to areas most needed at any given time.

We partner with the ICT Industry's leading manufacturers of proven technologies to deliver high-quality solutions to our clients. **MARVEL** understands that Information Technology and Networking are critical to today's security infrastructure and we ensure our solutions incorporate today's standards.

Beyond its technology **MARVEL** boasts the strongest team of project managers, technicians, and support personnel available in the industry and promotes an innovative and entrepreneurial culture within the organ clients' team in order to seamlessly facilitate the completion of any project. In forming a partnership with our client, we gain a unique understanding of our client's specific requirements as they evolve, thereby enabling us to promptly evaluate and adjust existing solutions to meet the changing needs of our clientele.

OUR VISION

In order to achieve our vision, our goals are:

- To continue to inspire confidence from our stakeholders by delivering Successful and safe projects.
- To continue to provide and develop strong leadership with integrity.
- To constantly strive for continuity of works, taking pride in our aim of delivering all projects safely, on budget and ahead of program, ultimately exceeding client expectation.
- To respect the well-being of our workers and protect the environment, maintaining our 'zero harm' record.
- To recognize and encourage our employees, providing skills development opportunities to help them develop in their careers.

To be one of the most respected Systems Integrator of ELV and ICT solutions in Bahrain and GCC

OUR MISSION

At **MARVEL**, our mission extends beyond the realms of design, deployment, and maintenance of ELV and ICT solutions. We are dedicated to serving various sectors, including Commercial, Residential, Industrial Buildings, Hospitals, High Rise Towers, Site offices, Schools, etc.

Commitment to Excellence:

Committed to delivering top-notch quality products and services, our focus is on achieving and maintaining excellence in all aspects of our operation. Recognizing our responsibility, we are determined to consistently meet and exceed our clients' expectations, while also prioritizing the safety of our employees, clients, visitors, and third parties.

Corporate Governance and Accountability:

Embedded within our mission is a distinct emphasis on Corporate Governance and Account Management. Upholding the highest standards of ethical conduct, transparency, and accountability, we ensure that our corporate practices reflect the values of integrity and responsibility.

Strategic Account Management:

Simultaneously, our dedication to account management is aimed at adding value for our clients through innovation, foresight, and aggressive performance.

Solutions

ITS INFRASTRUCTURE & TELECOMMUNICATION SOLUTIONS

ITS Server Infrastructure & Telecommunication & Networking Solutions.

MARVEL provides professional and complete range of ITS Infrastructure & solutions to a variety of sectors. We design and implement the latest in Information & communication Technologies. Our custom designs are tailored to suit your business and give you a competitive edge through value based service integration and Solution Services.

To deliver successful integration of complex systems requires both specialized skills and the right level of experience. Our team consists of highly certified professionals, many with over 10 years of experience in the IT industry.

Strong Communication and network foundation is the key to business agility and competitiveness in the technology-dependent Internet era.

TECHNOLOGY | CONSULTANCY | CREATIVITY

Structured cabling solutions (copper & Fiber optic networks)

MARVEL experts in providing well-designed, carefully implemented structured cabling systems that meet your data and communications needs. We specialized in the installation of copper network cabling to ensure long term performance system integrity, and investment protection.

MARVEL's specialists are experienced in carrying out major Fiber Optic network installations with all the detailed planning and resource utilization required for such projects. Having successfully designed and implemented many structured cabling projects in Qatar, you can be assured that you would have a very reliable network infrastructure for years to come.

MARVEL as a certified installer for many of the leading brands like Schnieder, Corning, R&M, Nexans, 3M, APC etc., we can warranty the projects as per manufacture standards from 15 to years.

We use calibrated and state of the art modern Cabling equipment's from leading manufactures like Fluke, EXFO, Fujikura, etc. We use our trained and certified technicians for splicing, terminations, cable laying etc.

Our installation teams are fully conversant and qualified with the latest installation practices and work to a quality-assured procedure ensuring all installations are carried out to a consistently high standard. Whether you need just one additional outlet or you require thousands installed, we have the knowledge, experience and expertise to ensure your installation is carried out to your specifications and with the same level of service and professionalism regardless of the size of the project or service call.

Complete DATA Center Infrastructure Solution

IT operations are a crucial aspect of most organizational operations around the world. A data center is a facility used to house computer systems and associated components, such as telecommunications and storage systems. If a system becomes unavailable, company operations may be impaired or stopped completely. A data center must therefore keep high standards for assuring the integrity and functionality of its hosted computer environment. This is accomplished through redundancy of mechanical cooling and power systems serving the data center along with fiber optic cables, environmental controls (e.g., air conditioning, fire suppression) and various security devices.

MARVEL provides consulting, planning and implementation of DATA centers of any size in different TIER levels. We design cooling / power requirements for DATA center which includes DATA center Precision A/Cs (Liebert), UPS systems (APC, Tripp-lite), Remote monitoring systems (IMS 4000), FM200 Fire systems, Security (Access control and CCTV monitoring), Generator, and other design concerns of DATA center.

MARVEL specializes in the infrastructure installation of data centre including raised/access flooring system, fire rated ceilings, fire rated doors, fire rated claddings, complete electrical, technology and mechanical installations.

UPS Solutions

A UPS is typically used to protect hardware such as computers, data centers, telecommunication equipment or other electrical equipment where an unexpected power disruption could cause injuries, fatalities, serious business disruption or data loss.

MARVEL provide Supply and installation of variety of UPS models and sizes. We provide both single phase and 3 phase solutions. We are specialized in design of parallel redundancy solutions and other mission critical requirements.

As TRIPP.LITE (a global manufacturer of power and connectivity solutions) premier partner with CAP certification; **MARVEL** provide all products and services offered by TRIPPLITE in the Kingdom of Bahrain.

IP Telephony Solutions

A private branch exchange (PBX) is a telephone exchange or switching system that serves a private organization and performs concentration of central office lines or trunks and provides intercommunication between a large number of telephone stations in the organization.

An IP PBX handles voice signals under Internet protocol, bringing benefits for computer telephony integration (CTI).

MARVEL specializes in supply and installation of PBX systems from multi vendors. **MARVEL** provides IP telephony solutions of NEC, Grandstream, ALCATEL, HUAWIE, PANASONIC and AVAYA.

Network Firewall Security: Safeguarding Your Digital Infrastructure

Welcome to **MARVEL** IT Solutions! We focus on keeping your business safe from online threats. By partnering with top brands in the cybersecurity field, we provide strong and reliable solutions to protect your digital assets.

In today's digital age, businesses and organizations rely heavily on their networks to operate efficiently and securely. However, with the increasing sophistication of cyber threats, ensuring that your network remains protected from unauthorized access, data breaches, and malicious attacks is critical. This is where Network Firewall Security comes into play.

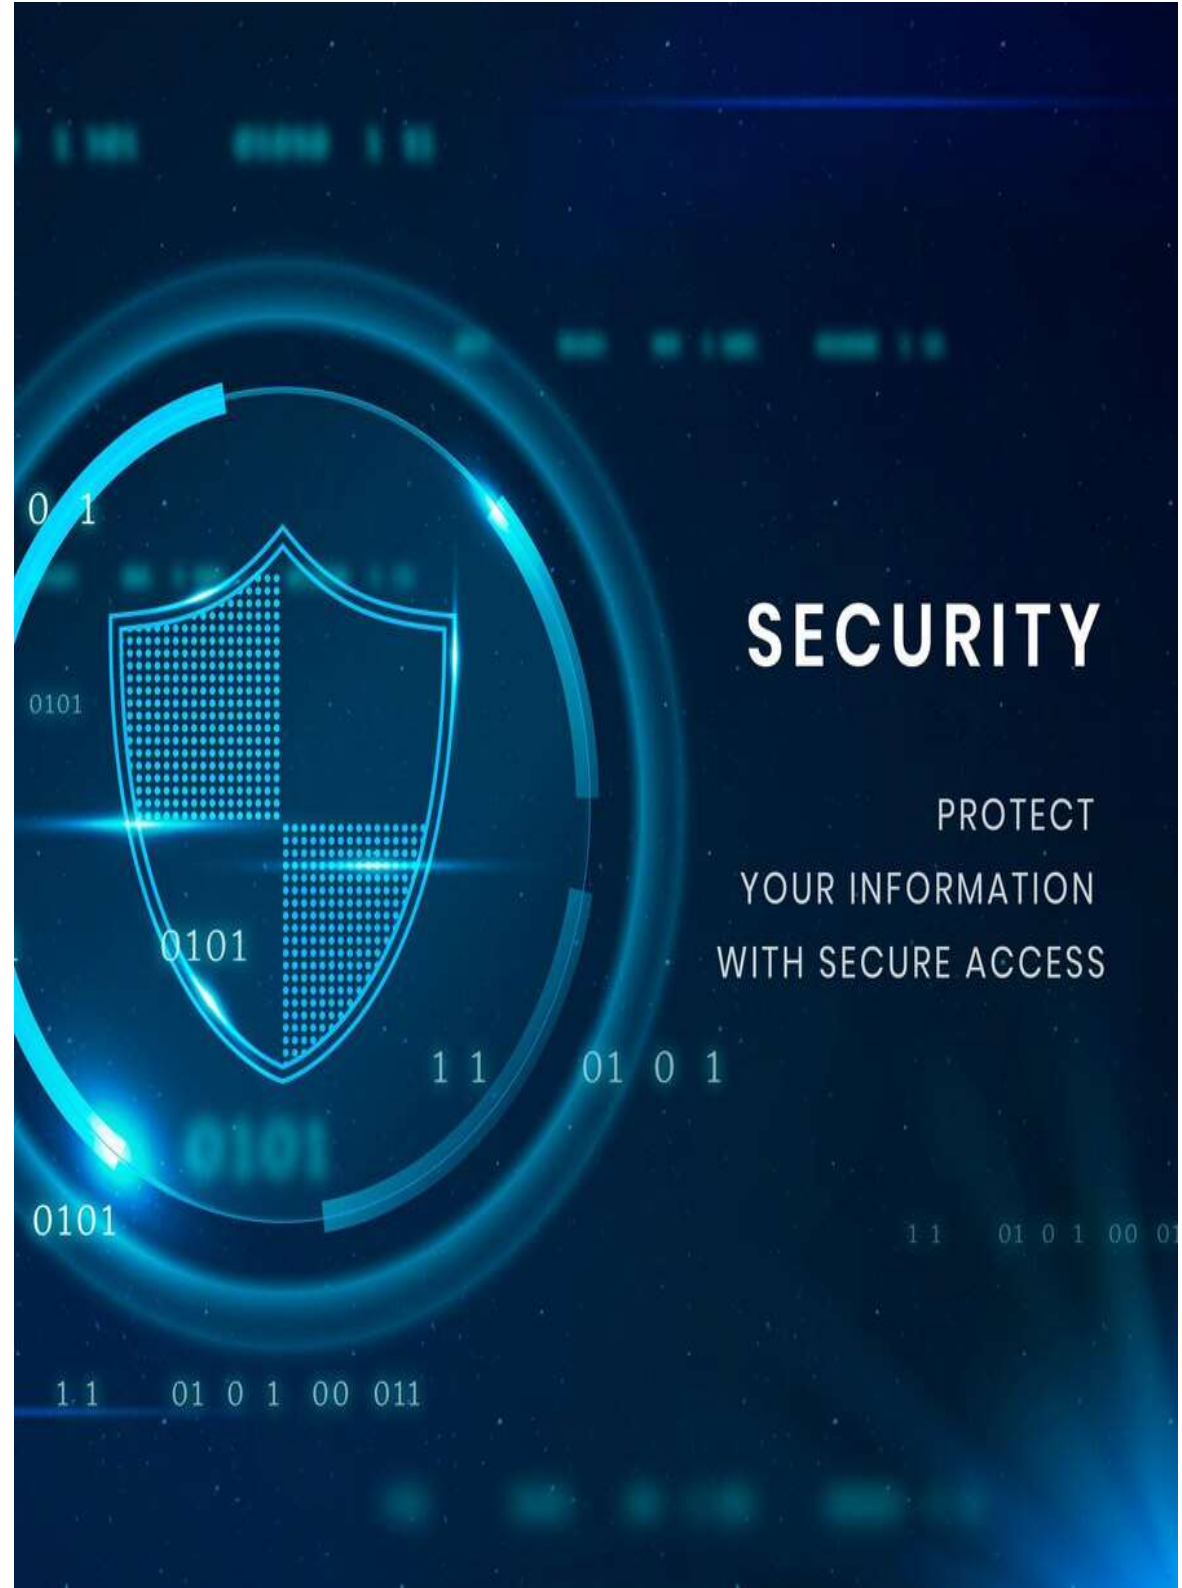

Why Do You Need Network Firewall Security?

- Protection from Cyberattacks
- Access Control
- Traffic Monitoring
- Compliance with Security Standards
- Prevention of Unauthorized Access

MARVEL offer state-of-the-art network firewall security solutions designed to meet the evolving needs of modern businesses. Our firewalls are easy to configure, scalable to fit businesses of all sizes, and packed with powerful features to ensure your network is always protected.

Whether you need a solution for a small office or a large enterprise, our team of experts can help you deploy a network firewall solution that delivers peace of mind and comprehensive protection.

Get in touch with us today to learn more about how our network firewall security solutions can safeguard your business and network infrastructure from cyber threats.

Incident Response is the process of detecting, investigating, and responding to cyber attacks to minimize damage and regain control of your systems.

At MARVEL Bahrain, we specialize in helping businesses detect breaches, understand how they occurred, and take swift action to prevent further damage. Our experts are ready to gather evidence, assess the origins of the attack, and guide your team through every step of recovery.

Queue Management Solution

MARVEL has a very professional **SNAPPY** Queue Management System that helps to reduce the customer waiting time and improves service accessibility. We provide a fast and reliable system that can manage queues effectively. Both Wired Queuing System and Wireless Queuing System are made available as a part of our service. Our areas of service include all across Middle-East and Europe.

Why Marvel and SNAPPY?

Marvel has long been recognized for providing cutting-edge technological solutions, while **SNAPPY** specializes in enhancing customer engagement through innovative tools. Together, they offer a powerful queue management solution that benefits both businesses and customers alike.

Improved Efficiency: The system streamlines queue management and resource allocation, ensuring faster service and improved operational efficiency.

Enhanced Customer Experience: With real-time updates, virtual queueing, and reduced wait times, customers experience a smoother and more enjoyable visit.

Reduced Customer Stress: Long wait times can frustrate customers. Our system reduces perceived wait times by offering accurate wait time estimates and keeping customers informed.

Increased Staff Productivity: By automating the queue process, your staff can focus on providing quality service rather than managing crowds, leading to higher employee satisfaction as well.

Data-Driven Insights: Marvel's advanced reporting tools provide valuable insights into customer behaviors, peak hours, and operational bottlenecks, helping you make informed decisions to further enhance efficiency.

Video/Voice Conferencing Solutions

Effective video and voice conferencing solutions revolve around the core principles of seamless communication, reliability, and accessibility. These systems address the critical aspects of who participates, where the meetings occur, and when they take place.

At **MARVEL**, we specialize in designing and implementing diverse video and voice conferencing solutions sourced from various reputable vendors. Our offerings range from standalone solutions for small-scale interactions to sophisticated networked setups, incorporating multiple endpoints, advanced audio and video peripherals, and robust collaboration tools. Whether your organization is a large enterprise or a nimble startup, we recognize the significance of facilitating smooth access to virtual meeting spaces.

Understanding that each business operates uniquely, we tailor our solutions to meet individual needs and requirements. Our commitment to enhancing your communication infrastructure is unwavering, ensuring that your team can connect effectively, regardless of their physical locations.

Access Control, Time and Attendance Security Systems

Physical access control is a matter of who, where, and when. An access control system determines who is allowed to enter or exit, where they are allowed to exit or enter, and when they are allowed to enter or exit.

MARVEL designs and implements different access control systems based on solutions from multiple vendors. These can include standalone card readers up to a complicated networked solutions consisting of tens of card and biometric readers, door controllers, turnstiles, road blockers and sensors. Whether your organization is large or small, the importance of managing access to your premises cannot be overemphasized. Therefore at **MARVEL** we design our solutions based on the understanding that every organization or company operates differently, and each has individual needs and requirements.

A time and attendance system enables an employer to have full control of all employees working hours. It helps control labour costs by reducing over-payments, eliminating manual processes.

MARVEL provide time attendance systems from ZKTECO, PAXTON, Suprema, ACTATEK and other vendors.

This prestigious partnership reflects Marvel's commitment to delivering high-quality, innovative, and reliable solutions across various industries, including hospitality, healthcare, retail, and industrial sectors.

Major Clients

Public Addressing System (PA System)

A Public Addressing System (PA System) is crucial for effective communication in various settings. The success of a PA System relies on its ability to address specific aspects such as where, when, and how information is conveyed.

MARVEL specializes in designing and implementing state-of-the-art PA Systems tailored to the unique needs of diverse environments. Our solutions encompass a range of products, from standalone speakers to sophisticated networked setups, ensuring seamless communication.

Our PA Systems feature components from renowned vendors, ensuring top-notch quality and performance. We collaborate with industry-leading brands, such as BOSE, JBL, ITC, and others, to provide a comprehensive range of options for our clients.

Effective communication is at the heart of every successful organization. With MARVEL's expertise in PA Systems, you can trust that your communication needs will be met with precision and reliability. Whether it's a simple announcement or a complex multi-zone setup, we have the solutions to enhance your communication infrastructure.

CCTV and Security Surveillance

MARVEL has extensive experience in designing and installation of different CCTV security surveillance solutions. By carefully assessing our clients' requirements, we design, install and maintain cost-effective security systems which achieve and exceed Our clients' expectations.

MARVEL has successfully implemented tens of large and small CCTV systems including analog and IP-based solutions from vendors such as Bosch, Axis, Dahua, HIKVision, Samsung, etc.
